EXPLANATION OF AND RATIONALE FOR PROPOSED CHANGE

For new programs, please include any relevant supporting documentation such as student learning outcomes, projected enrollments, letters of support and departmental handouts. *(Use additional pages if necessary).*

During the past year the four options in ESRM were assessed and some slight revisions recommended and passed by the CFR faculty.

The revision to the Restoration Ecology and Environmental Horticulture Option reflects more current offerings and recent faculty changes, and also aligns the number of credits required with our other options (all at 35 credits).
