

OFFICE OF THE PRESIDENT

June 12, 2009

Dean Matthew O'Donnell College of Engineering Box 352180

Dear Matt:

Based on the recommendation of its Subcommittee on Admissions and Programs, the Faculty Council on Academic Standards has recommended approval of the revised admission and program requirements for a Bachelor of Science in Chemical Engineering degree. A copy of the changes is attached.

I am writing to inform you that the College of Engineering is authorized to specify these requirements beginning autumn quarter 2009.

The new requirements should be incorporated in printed statements and in individual department websites as soon as possible. The *General Catalog* website will be updated accordingly by the Registrar's Office.

Sincerely yours,

Mand

Mark A. Emmert

President

Enclosure

cc: Mr. Dave Drischell (with enclosure)

Mr. Robert Corbett (with enclosure)

Dr. Deborah H. Wiegand (with enclosure)

Todd Mildon, J.D. (with enclosure CHEME-20090504)

After college/school/campus review, send a signed original and 8 copies to the Curriculum Office/FCAS, Box 355850. For information about when and how to use this form: http://depts.washington.edu/uwcr/1503instructions.pdf

EXPLANATION OF AND RATIONALE FOR PROPOSED CHANGE For new program, please include any relevant supporting documentation such as student learning outcomes, projected enrollments, letters of support and departmental handouts. (Use additional pages if necessary). All of our majors need to have some background in programming, control structures, file processing. Students without this			
background should take CSE 142 or an equivalent (the current prerequisite). However, a growing number of applicants to the major have the needed programming background in a wide variety of possible forms. Those students need not repeat overlapping content in CSE 142, but be encouraged to complete AMATH 301 where they get scientific computing and matlab, which is becoming more widely available at the community colleges as well as at the UW. The skills obtained through AMATH 301 are directly applicable to our degree. We would thus like the current prerequisite (CSE 142) changed to allow either course (AMATH 301 or CSE 142) as the prerequisite and as the degree requirement."			
OTHER DEPARTMENTS AFFECTED			
List all departments/units/ or co-accredited programs affected by your new program or changes to your existing program and acquire the signature of the chair/director of each department/unit listed. Attach additional page(s) if necessary. *See online instructions.

CATALOG COPY

Catalog Copy as currently written. Include only sections/paragraphs that would be changed if your request is approved. Please cross out or otherwise highlight any deletions.

Department Admission Requirements

3 Upper-Division Admission

a. Course requirements: MATH 124, MATH 125, MATH 126, MATH 307 (18 credits); CHEM 142, CHEM 152, CHEM 162, CHEM 223 or CHEM 237 (19); PHYS 121, PHYS 122, PHYS 123 (15), CSE 142 (4), CHEM E 260 (4); and one 5-credit English composition course. In addition, it is strongly recommended that students complete CHEM 224 or CHEM 238.

Graduation Requirements

Major Requirements (71 credits)

1. Engineering Fundamentals (8 credits): CHEM E 260; CSE 142

PROPOSED CATALOG COPY

Reflecting requested changes (Include exact wording as you wish it to be shown in the printed catalog. Please underline or otherwise highlight any additions. If needed, attach a separate, expanded version of the changes that might appear in department publications). Please note: all copy will be edited to reflect uniform style in the General Catalog.
