EXPLANATION OF AND RATIONALE FOR PROPOSED CHANGE

For new programs, please include any relevant supporting documentation such as student learning outcomes, projected enrollments, letters of support and departmental handouts. (Use additional pages if necessary).

We are submitting this application to correct an oversight in the 1503 that we submitted last year to establish the new Bachelor of Science in Bioengineering curriculum. We had intended to include Chemistry 223/237 as a requirement for upper admission. It is a firm prerequisite for BIOEN 315 in SPR of the sophomore year. This oversight has caused to confusion for students as they do not see that this course is listed as an admission requirement.
