EXPLANATION OF AND RATIONALE FOR PROPOSED CHANGE For new program, please include any relevant supporting documentation such as student learning outcomes, projected enrollments, letters of support and departmental handouts. (Use additional pages if necessary). We would like to update our requirements for the Teacher Preparation option for the BA in Mathematics. There are two significant changes. First, we are explicitly including MATH 300 as a degree requirement. Currently, MATH 300 is indirectly required, since it is a prerequisite for the required course MATH 444/5. Secondly, we have streamlined the electives phrasing. We believe both changes will help eliminate student confusion.		
OTHER DEPARTMENTS AFFECTED List all departments/units/ or co-accredited programs affected by your new program or changes to your existing program and acquire the signature of the chair/director of each department/unit listed. Attach additional page(s) if necessary. *See online instructions.
