Catalog Copy as currently written. Include only sections/paragraphs that would be changed if your request is approved. Please cross out or otherwise highlight any deletions.

Bachelor of Fine Arts

Program Admission Requirements

Admission is once a year. Application, normally during the sophomore year, is made during winter quarter for admission in spring. Admission is competitive. A minimum 2.50 GPA guarantees consideration, but the GPA of accepted applicants is normally considerably higher.

All applicants, regardless of background and proposed course of study, are expected to show a significant level of computing skill and general technology literacy.

Students must enroll in DXARTS 200 autumn quarter. Based on performance in DXARTS 200, students are selected to continue in DXARTS 201 winter quarter. Students enrolled in DXARTS 201 are eligible to submit an application and supplemental materials to be considered for admission spring quarter. Supplemental materials include an electronic portfolio, a statement of interest in the program, and a proposed course-of-study plan. For details, see the program's website. Students must complete the following prior to application:

CSE 142

PHYS 114 or PHYS 121

MUSIC 120

ART H 203

Mathematics proficiency through the pre-calculus level. Proficiency may be demonstrated by completion of MATH 120 or equivalent, a minimum score of 68% on the UW Advanced Mathematics placement test, a minimum score of 2 on the mathematics AP exam, or completion of a college-level calculus course.

RE: Proposed DXARTS Admissions Suspension

Hi Jennifer,

Sorry for the delay in responding to the questions that arose in SCAP. I have transitioned to a new position in the Dean's Office (working with Kevin Mihata). I am still in close contact with DXARTS faculty and students, so am trying to help out when I can.

In response to the questions you raise, here are our best answers:

- 1) There are fewer than 25 pre-majors in the pipeline who intended to apply this year. This is based on our past numbers (in the last few years, we typically have had only 20 22 apply).
- 2) I don't know how many students who were admitted for Autumn 2011 indicated DXARTS as their intended major. Only Admissions has that data. I could try and find out.
- 3) We have not notified Community Colleges directly, but can do so through two separate means: 1) The UW's transfer newsletter (quarterly online publication) and 2) the UW/Community College listserv. Our web site has had the information posted since early August.
- 4) As for notifying current UW students, we have published this on our web site and announced it in DXARTS 200. As for other similar programs in the area/state, there are no comparable programs. However, UW students could include DXARTS courses as electives in their degree (we allow non-majors access to most of our courses). Art majors can use our courses toward major requirements.

I hope this is helpful. I have copied Juan Pampin, Director of DXARTS, on this response if you have any follow-up questions.

Best,

Cynthia Caci

Subject: Proposed DXARTS Admissions Suspension

Cynthia,

SCAP reviewed your 1503 on Friday and has some additional questions before they make their recommendation to FCAS.

- 1) How many students do you estimate are "pre-majors" who were intending to apply to DXARTS this year? How many students apply each year/are accepted?
- 2) How many new students checked DXARTS as their intended major on the UW application for this fall?
- 3) Did you notify the Community Colleges that you may suspend admissions? If not, what is your plan to do so?
- 4) How do you plan to notify current students if this is approved? What are the alternative programs in the area/state they should consider?

Please let me know if you have questions.

Jennifer
