EXPLANATION OF AND RATIONALE FOR PROPOSED CHANGE

For new program, please include any relevant supporting documentation such as student learning outcomes, projected enrollments, letters of support and departmental handouts. (Use additional pages if necessary).

The minor in Streamside Studies has not had good enrollment, and the highest enrollment was 9 students since it was started in 1999. It currently has 4 students, who will be allowed to complete the minor.

Additionally, the Water Center was closed last year, and there now is no staff support and research directly tied to the program.

The SFR faculty has decided to not give resources toward the minor and would like to eliminate it.

OTHER DEPARTMENTS AFFECTED

List all departments/units/ or co-accredited programs affected by your new program or changes to your existing program and acquire the signature of the chair/director of each department/unit listed. Attach additional page(s) if necessary. *See online instructions.

Subject: RE: Streamside Studies minor

HI!

I'm glad they are having that discussion. I so do not want to have to go through an RCEP for this thing...no one here cares, but the amount of work is ridiculous right now. I hope they see the light!

I think the stipulation is fine too. I've had no real time to deal with it like I thought.

Thanks Jennifer!

Subject: Streamside Studies minor

Michelle

SCAP is going to forward this 1503 to FCAS next week, however there will be a discussion at FCAS if the Faculty Code requires RCEPS for the elimination of minors. Also, if the proposal to eliminate the minor is approved the following stipulations will be included.

You must publish on the School of Forest (and Environmental) Resources website that you are eliminating the minor effective AUT/2012, not 2011 and that students have until the end of this Academic year to declare the minor and allow those students to finish the minor. We will publish this in the General Catalog as well.

Please let me know if you have any questions.

Jennifer
