EXPLANATION OF AND RATIONALE FOR PROPOSED CHANGE For new program, please include any relevant supporting documentation such as student learning outcomes, projected enrollments, letters of support and departmental handouts. (Use additional pages if necessary). The name change will more accurately reflect the content of the major that emphasizes architectural design in a studio-based setting. The addition of CM 313 in lieu of Arch 332 reflects a long-standing requirement in the program that is incorrectly noted in the current catalog copy.					
OTHER DEPARTMENTS AFFECTED List all departments/units/ or co-accredited programs affected by your new program or changes to your existing program and acquire the signature of the chair/director of each department/unit listed. Attach additional page(s) if necessary. *See online instructions.

(new catalog copy for the BA in Architectural Design program below)

Adviser

208 Gould Hall, Box 355720 206-543-3043 bainfo@uw.edu

Advising for the first two years of the program is done through the Undergraduate Gateway Center, 171 Mary Gates Hall.

The Department of Architecture offers the following programs of study:

- The Bachelor of Arts degree with a major in architectural studies
- A dual-degree program leading to the Bachelor of Arts degree with a major in architectural studies and the Bachelor of Science degree in construction management
- A minor in architecture

The B.A. with a major in architectural studies is for students who are interested in the architecture profession and who may continue their studies by earning a graduate professional degree in Architecture. The master's degree in Architecture is a professional degree and generally takes two or more years to complete if the student enters with the pre-professional B.A. in architectural studies. It takes three years or more to complete if the student enters with any bachelor's degree other than one in architecture.

The college also offers a design and construction concurrent degree (B.A. in Architectural Studies, B.S. in Construction Management), awarded after completion of 227 credits. Students interested in this double degree must complete the prerequisites for the Architectural Studies major, be admitted to Architectural Studies, and then apply to Construction Management while completing the Architectural Studies major. This is a five-year program. In addition, the College of Built Environments offers three other bachelor degrees: the B.L.A. in landscape architecture, a five-year professional degree; the B.S. in Construction Management, a four-year professional degree; and the B.A. in Community, Environment, and Planning, a four-year interdisciplinary degree.

Application deadline: May 15 for autumn quarter only. Prerequisite courses must be completed by the time the student enters the program in autumn quarter.

Major Requirements

90 credits as follows:

- *Preprofessional Coursework (69 credits):* ARCH 300, ARCH 301, ARCH 302, ARCH 315, ARCH 320, ARCH 321, ARCH 322, ARCH 332, ARCH 380, ARCH 400, ARCH 401, ARCH 402, ARCH 431, ARCH 460. One selective course in each of the following areas: (1) graphics/media; (2) history/theory; (3) building science/materials. Selective courses to be chosen from approved lists maintained by the department.
- 21 credits of approved upper-division electives.
- The final 45 credits must be completed as a matriculated student in residence at the UW.

Minimum 2.50 cumulative GPA for all work done in residence.

Dual-Degree Program

Admission Requirements

Dual-degree majors first apply to the architecture program and must meet architecture admission requirements. Admitted architecture students apply to the construction management program during spring quarter of their junior year (first year in the architecture program). For architecture students, construction management prerequisites are waived, but such students must take CM 313 and CM 323 prior to the construction management application deadline, April 1.

Dual Degree Program Requirements

139 credits, as follows:

- *Architecture Foundation Courses (60 credits):* ARCH 300, ARCH 301, ARCH 302, ARCH 315, ARCH 320, ARCH 321, ARCH 322, ARCH 380, ARCH 400, ARCH 401, ARCH 402, ARCH 431, ARCH 460.
- *Architecture Selectives (6 credits):* 3 credits of graphic/media selective chosen from among the following BIM-recommended courses: ARCH 316, ARCH 410, ARCH 412, ARCH 413, ARCH 415, ARCH 418, ARCH 478, ARCH 481, ARCH 482, ARCH 484, ARCH 485, ARCH 486, ARCH 498. 3 credits of history/theory selective from among the following courses: ARCH 441, ARCH 442, ARCH 450, ARCH 452, ARCH 455, ARCH 457.
- *Construction Management Courses (64 credits):* CM 310, CM 311, CM 312, CM 313, CM 321, CM 322, CM 323, CM 331, CM 332, CM 333, CM 334, CM 410, CM 411, CM 412, CM 421, CM 422, CM 423, CM 431 (capstone experience), CM 432, CM 433, B CMU 301.
- *Construction/Construction Science Electives (6 credits):* Two of the following courses: CM 415, CM 420, CM 425, or ARCH 420.
- *Approved Electives (3 credits):* may be chosen from among CM or ARCH courses.
- Minimum 2.50 cumulative GPA for all work done in residence.

Note: A minimum of 225 credits is required to complete a dual degree.

Minor

Minor Requirements: 25 credits to include a minimum of 20 credits in ARCH courses (at least 9 credits at the upper-division level) and 5 additional upper-division credits from courses in the College.

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The architectural studies program emphasizes a broad liberal arts foundation followed by a focus on entry-level courses in architectural design, theory, the technology of building, and materials. Specific goals for student learning include an understanding of the organization of three-dimensional space in response to specific human needs; the sequences and history of human building activities; various architectural theories and current thought about the aesthetics of design; construction materials and their properties; building systems and their integration for human comfort; structural principles, relationships of buildings to their sites; social, political, legal, and economic influences of design and construction. Specific goals in the area of personal development include an ability to visualize three dimensions and think spatially; graphic, verbal, and written communication skills for design development and presentation; an ability to think critically and exercise self-criticism.

Of Special Note:

Most states require that an individual intending to become an architect hold an accredited degree. Two types of degrees are accredited by the National Architectural Accrediting Board (NAAB): (1) the Bachelor of Architecture, which requires a minimum of five years of architectural study (this degree is not offered at the University of Washington), and (2) the Master of Architecture, which requires a minimum of three years of study following an unrelated bachelor's degree or two years following a related pre-professional bachelor's degree. These professional degrees are structured to educate those who aspire to registration and licensure to practice as architects.

The UW's four-year, pre-professional degree is not accredited by NAAB. The pre-professional degree is useful to those desiring a foundation in the field of architecture as preparation for either continued education in a professional degree program or for employment options in fields related to architecture.

Architectural education at the University of Washington requires a minimum of six years of higher education to attain the first professional degree, the Master of Architecture. The curriculum is divided into three two-year segments of coursework with a pre-professional Bachelor of Arts degree (with a major in Architectural Studies) awarded at the completion of the second two-year segment. The professional degree, Master of Architecture, is awarded only upon completion of the third segment. (Students with bachelor's degrees in unrelated fields take an additional year of coursework.)

PROPOSED Catalog Copy for the BA in Architectural Design program
(deletions noted with strikethrough, additions with underline)

bainfo@uw.edu

Advising for the first two years of the program is done through the Undergraduate Gateway Center, 171 Mary Gates Hall.

The Department of Architecture offers the following programs of study:

- The Bachelor of Arts degree with a major in architectural studies
- The Bachelor of Arts degree with a major in architectural studies design
- A dual-degree program leading to the Bachelor of Arts degree with a major in architectural studies design and the Bachelor of Science degree in construction management
- A minor in architecture

The Bachelor of Arts in Architectural Design is a pre-professional degree that prepares candidates for admission with advanced standing to professional architectural programs. It is also good preparation for other roles in society that benefit from an understanding of and exposure to architectural design and problem solving such as government, development, management, planning, art, graphic design, and digital arts. Students develop visual literacy and complex problem solving through the design process, including researching historical precedents, analyzing theoretical texts and on site understanding of the physical built and natural environment. International study programs (Rome, Scandinavia, India, Mexico, Japan) provide further opportunities for students to engage built environments within global/local, contemporary/historical cultural contexts. A focus on sustainable technologies and the craft and making of architecture play an important role throughout the program.

The B.A. with a major in architectural ~~studies design~~ is for students who are interested in the architecture profession and who may continue their studies by earning a graduate professional degree in Architecture. The master's degree in Architecture is a professional degree and generally takes two or more years to complete if the student enters with the pre-professional B.A. in architectural ~~studies design~~.

The college also offers a design and construction concurrent degree (B.A. in Architectural Studies Design, B.S. in Construction Management), awarded after completion of 227 credits. Students interested in this double degree must complete the prerequisites for the Architectural Studies Design major, be admitted to Architectural ~~Studies Design~~, and then apply to Construction Management while completing the Architectural Studies Design major. This is a five-year program. ~~In addition, the College of Built Environments offers three other bachelor degrees: the B.L.A. in landscape architecture, a five-year professional degree; the B.S. in Construction Management, a four-year professional degree; and the B.A. in Community, Environment, and Planning, a four-year interdisciplinary degree.~~

Application deadline: May 15 first Monday of Spring Quarter for autumn quarter only. Prerequisite courses must be completed by the time the student enters the program in autumn quarter.

Major Requirements

90 credits as follows:

- *Pre-professional Coursework (69 credits):* ARCH 300, ARCH 301, ARCH 302, ARCH 315, ARCH 320, ARCH 321, ARCH 322, ARCH 332, ARCH 380, ARCH 400, ARCH 401, ARCH 402, ARCH 431, ARCH 460, and CM313. One selective course in each of the following areas: (1) graphics/media; (2) history/theory; (3) building science/materials. Selective courses to be chosen from approved lists maintained by the department.
- 21 credits of approved upper-division electives.
- The final 45 credits must be completed as a matriculated student in residence at the UW.
- Minimum 2.50 cumulative GPA for all work done in residence.

Dual-Degree Program

Admission Requirements

Dual-degree majors first apply to the architecture architectural design program and must meet architecture architectural design admission requirements. Admitted architecture architectural design students apply to the construction management program during spring quarter of their junior year (first year in the architecture architectural design program). For architecture architectural design students, construction management prerequisites are waived, but such students must take CM 313 and CM 323 prior to the construction management application deadline, April 1.

Dual Degree Program Requirements

139 credits, as follows:

- *Architecture Foundation Courses (60 credits):* ARCH 300, ARCH 301, ARCH 302, ARCH 315, ARCH 320, ARCH 321, ARCH 322, ARCH 380, ARCH 400, ARCH 401, ARCH 402, ARCH 431, ARCH 460.
- *Architecture Selectives (6 credits):* 3 credits of graphic/media selective chosen from among the following BIM-recommended courses: ARCH 316, ARCH 410, ARCH 412, ARCH 413, ARCH 415, ARCH 418, ARCH 478, ARCH 481, ARCH 482, ARCH 484, ARCH 485, ARCH 486, ARCH 498. 3 credits of history/theory selective from among the following courses: ARCH 441, ARCH 442, ARCH 450, ARCH 452, ARCH 455, ARCH 457.
- *Construction Management Courses (64 credits):* CM 310, CM 311, CM 312, CM 313, CM 321, CM 322, CM 323, CM 331, CM 332, CM 333, CM 334, CM 410, CM 411, CM 412, CM 421, CM 422, CM 423, CM 431 (capstone experience), CM 432, CM 433, B CMU 301.
- *Construction/Construction Science Electives (6 credits):* Two of the following courses: CM 415, CM 420, CM 425, or ARCH 420.
- *Approved Electives (3 credits):* may be chosen from among CM or ARCH courses.
- Minimum 2.50 cumulative GPA for all work done in residence.

Note: A minimum of 225 credits is required to complete a dual degree.

Minor

Minor Requirements: 25 credits to include a minimum of 20 credits in ARCH courses (at least 9 credits at the upper-division level) and 5 additional upper-division credits from courses in the College.

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The architectural-studies design program emphasizes a broad liberal arts foundation followed by a focus on entry-level courses in architectural design, theory, the technology of building, and materials.
