Subject: Add something to the next SCAP agenda?

Hi Jennifer,

Can you add something as a possible agenda item (time permitting)?

Clarification on overlap restrictions in Interdisciplinary Minors for students with multiple majors and/or degrees. I've had requests from departments with these minors to clarify the restrictions on overlap with courses in a student's major. I can explain the scenarios and different ways departments are viewing it in person, unless I need to write it up.

Thanks!

Tina M
