**EXPLANATION OF AND RATIONALE FOR PROPOSED CHANGE**

For new program, please include any relevant supporting documentation such as student learning outcomes, projected enrollments, letters of support and departmental handouts. *(Use additional pages if necessary).*

While Integrated Sciences students currently have the option to graduate with Interdisciplinary Honors, they currently cannot graduate with Departmental Honors or College Honors. While Interdisciplinary Honors allows students to demonstrate a general record of achievement at the university, Departmental Honors would allow students to be recognized for their achievements within the major and would allow those students to pursue a more in-depth research project beyond what is required for non-Honors Integrated Sciences students. We would therefore like to propose requirements for Departmental Honors in Integrated Sciences, to include a minimum cumulative GPA of 3.3 and completion of an Honors thesis while registered for the Honors section of INTSCI 493.

**OTHER DEPARTMENTS AFFECTED**

List all departments/units/ or co-accredited programs affected by your new program or changes to your existing program and acquire the signature of the chair/director of each department/unit listed. Attach additional page(s) if necessary. \*See online instructions.
